From the National Court

Case No J2016-15

Jordan Ford

Eligibility Appeal

This matter comes before the National Court pursuant to GR.C.9.1 following a concern by the MSA that there may have been an irregularity in fuel testing, following the taking of fuel samples from a competitor after the MSA British Superkart GP for F250 karts at Donington Park on 5th June 2016.

The court has considered the evidence to hand and concludes that the procedure used to test the fuel from Kart No 198 (Jordan Ford) was inadequate. It follows Mr Ford, who was excluded from the results of the race, under GR.C.3.1.1 should now be reinstated in these results.
