Existing Regulation

1.1. The MSA defines a Championship as “an event, or series of events, organised for the purpose of establishing the right to an individual for collective title. Such a competition may also be referred to by other titles, e.g. Challenge, Trophy or Series”.

1.1.4.3. The organisation and control of a Championship shall at all times rest with the Championship Permit holder, subject to these Regulations.

1.1.6. The right to a Championship title resides with the body who originally registered that Championship. However, where a Championship was originally proposed by a commercial body, that body shall have the right to nominate or change the organisers of that Championship, subject to the terms of their contract.

1.1.6.1. Championships bearing the title International, European, British, National or other titles which mean to convey the same impression are normally reserved for Series promoted by, or on behalf of, the MSA. Organisations wishing to make application for such a Series or to be associated with such a Series, should seek separate approval from the MSA prior to application for a Permit.

1.1.6.2. Championships bearing the title British and including one or more qualifying rounds of International status events, where those rounds are also rounds of an FIA Championship, must submit their Championship calendars by 31st May in the preceding calendar year for approval by the Motor Sports Council. Championships bearing the title British and comprising International events not being rounds of an FIA Championship and/or national events must submit their Championship calendars by 31st August in the preceding calendar year for approval by the Motor Sports Council.

Proposed Regulation

1.1. The MSA defines a Championship as “an event, or series of events, organised for the purpose of establishing the right to an individual for collective title. Such a competition may also be referred to by other titles, e.g. Challenge, Trophy or Series”.

1.1.4.3. The organisation and control of a Championship or Series shall at all times rest with the Championship Permit holder, subject to these Regulations.

1.1.6. The right to a Championship or Series title resides with the body who originally registered that Championship. However, where a Championship or Series was originally proposed by a commercial body, that body shall have the right to nominate or change the organisers of that Championship or Series subject to the terms of their contract.

1.1.6.1. Championships or Series bearing the title International, European, British, National or other titles which mean to convey the same impression are normally reserved for Series Championships promoted by, or on behalf of, the MSA. Organisations wishing to make application for such a Series or to be associated with such a Series, should seek separate approval from the MSA prior to application for a Permit.

1.1.6.2. Championships or Series bearing the title British and including one or more qualifying rounds of International status events, where those rounds are also rounds of an FIA Championship, must submit their Championship calendars by 31st May in the preceding calendar year for approval by the Motor Sports Council. Championships or Series bearing the title British and comprising International events not being rounds of an FIA Championship and/or national events must submit their Championship calendars by 31st August in the preceding calendar year for approval by the Motor Sports Council.
1.1.7. The registration of a Championship for a specific class of vehicle does not give the Championship Organiser the right to prevent other championships for that class of vehicle (subject to the authority of the MSA).

1.1.7.1. Championship Organisers may specify in their Championship Regulations procedures for the gathering of on-board data logging information which shall be in accordance with MSA guidelines.

1.1.8. Where a Championship Permit has been issued, Championship Sporting and Technical Regulations may not be amended after publication unless the MSA and all competitors registered for the Championship agree in writing to the alteration. Such amendments must be circulated to all Registered Competitors, Championship Stewards, Eligibility Scrutineer, Clubs organising Rounds of the Championship and to the MSA.

1.3. Normally only Clubs which have been recognised by the MSA for more than two years are permitted to apply for a Championship Permit. The deadlines for Car Racing Championship applications are as follows:

1.3.1. Date by which a Notice of Intent to run or continue to run a racing Championship in the following year must be registered with the MSA. For existing Championships, a list of the number of starters at each round held in the year previous to the year of application must also be submitted. Any Notice of Intent received after 1st July will only be considered by the Motor Racing Championship Control Panel in exceptional circumstances, and may be subject to a late submission fee. Any major changes in a Championship must be
1.3.1.3. In respect of all proposed new Grade ‘A’ and ‘B’ Race Championship applications a Notice of Intent must be submitted. Any new manufacturer backed Championship must have guaranteed manufacturer support for a minimum of three years. If the Motor Racing Championship Control Panel agrees, in principle, with the application then the Club must lodge with the MSA a commitment fee or must issue MSA with formal confirmation that they themselves hold a commitment fee in this respect. In the event that the commitment fee is held by the MSA it will be forfeit if the Championship fails to take place, or ceases prematurely during its first three years. Providing that the Championship has run as specified during its first three years, the fee will then be returned, without interest, to the Club. In the event that the Club has lodged formal confirmation with the MSA that they hold the commitment fee and the Championship fails to take place or ceases prematurely during its first three years the Club will take responsibility for any commercial liabilities of the Championship.

1.3.1.4. Any Club whose Championship has either ceased to run or has failed to commence will be required to submit a complete new application if approval is sought in any subsequent years.

1.3.1.5. To maintain Championship status, the average number of starters during the previous year in a Grade A, B, C or D Championship should be 18.

1.3.1.6. Provision has been made for a Venue Specific Championship which does not meet this minimum and this dispensation will be reviewed on an annual basis. It is agreed that a Venue based Championship may visit once during the season an alternate venue, and that the Championship Number be suffixed with a “V” to differentiate these Championships.
1.3.1.7. Any new C or D Championship must have been run as a series of stand alone races during the previous year, to demonstrate competitor support and justify Championship Status.

1.3.1.8. Any mixed discipline Championship in which more than three events are Car Races will also be required to submit a Race Championship Permit Application.

1.3.2. Points Scoring

Unless the particular Championship Regulations specify differently, all Commercial Racing Championships must utilise the points system as detailed in paragraph (a) or (b) below. (c) Where there are over 15 rounds organised in the Series, a competitor shall count his results in the total number of events run less three.

(d) Points scored by a driver in different classes within a Series will be totalled separately towards his final placing. However, a change of car within a class will not affect a driver’s points total.

Unless the particular Championship Regulations specify differently, ties will be resolved in the following order:

(a) By considering in the best scoring events of the competitors concerned, the number of first places or class wins.

(c) By considering the placings in all Championship events.
