Proposed Kart Category Structure

Following is the proposed short-circuit non-gearbox Kart Category structure for 2022 and beyond, displayed in a simple format for each Category showing ages, engine options/requirements, chassis requirements and tyre requirements. At the end is a simple summary chart, based on driver ages showing the various overlaps between categories.

The purpose of this consultation is to gather feedback on the proposed overall structure, finer details, such as class weights, homologation requirements etc. will be established in due course.
