

STATEMENT ON OVERNIGHT STAYS FOR PERMITTED EVENTS BETWEEN 29 MARCH-12 APRIL 2021

Organised Sport as a whole resumes generally on 29 March; Motorsport is by definition an Organised Sport under the authority vested in Motorsport UK as a recognised National Governing Body where our Event and related COVID-19 safety protocols have been approved by DCMS with whom we are in frequent contact.

Organised sport can only function with the use of sporting officials and as a dangerous sport must have safety officials including all marshals and COVID-19 officials under the regulations and protocols of the NGB as well as the requirements of the Health and Safety at Work Acts ('the Acts').

Working, including volunteer work, is permitted and the sporting and safety officials in the Organised sport context are 'working' and are categorised for this purpose as 'volunteer workers'.

Accordingly the Event Officials including Safety Officials can legitimately stay away from home overnight and make a declaration to that effect.
