

Applying Helmet and FHR Stickers COVID-19 Procedure

Applying Helmet Stickers during COVID-19

- This procedure has been produced to enable helmet and FHR stickers to be applied safely in accordance with current COVID 19 guidelines and procedures. It is up to the individual whether they wear gloves when performing this procedure. We recommend that hand sanitiser is used before and after the process.

Step 1

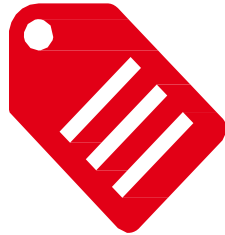

Helmet sticker strips should be cut up into individual stickers and stored in a box, when issuing a sticker. The issuer should select a sticker using tweezers/long nose pliers or using sanitized disposable gloves

At NO point should the sticker be touched by bare hands - after 48hrs in the box they are considered uncontaminated

Step 2

The person bringing the helmet for stickering should hold the helmet in such a way that when the lining is pulled back, the FIA Standard and/or any other associated information labels can be seen. On **NO** account should the scrutineer touch the helmet unless applying the sticker with sanitised disposable gloves

 AG 900 21	In compliance with: FIA Standard 8859-2015
	Manufacturer Name: Name of Manufacturer
Serial N°: XXX XXX	Model Name
Model	Homologation N° : PH.XXX.XX-X
Date of Manufacture: JAN 2015	Size: XS

Step 3

When the inspecting scrutineer is satisfied that the helmet is of a current standard, they should carry out a visual inspection of the exterior to ensure there is no damage. This can be achieved by requesting the helmet be orientated for a complete inspection

Step 4

When satisfied that the helmet is of a valid standard and the condition is acceptable the issuing scrutineer can give the sticker, using tweezers, and indicate where it is to be affixed to the helmet, this has to be completed in the scrutineers' presence

Alternatively, the scrutineer may affix the sticker using sanitised disposable gloves

FHR Devices

The same procedure applies for the FHR, stickers should be stored and issued in the same way, the presenter should do what is required to allow the scrutineer to check the FIA standard and the overall condition, affixing the sticker is also the same procedure

Payment and Sanitising

- The competitor should put the **correct** fee into a separate container – we advise not exchanging cash back to the competitor
- The scrutineer should leave the money for 48hrs (72hr for coins) to be considered uncontaminated
- Hand sanitiser should also be used before and after the procedure as an additional precaution. Any disposable gloves should be thrown away.
