KARTING

With Appendix for Guidance for
KARTING Venues and Event Organisers

MotorsportUK.org/COVID-19

Version. 30 July 2021

Introduction

Motorsport UK, like other sports governing bodies, has been planning how it will be possible to restart our sport whilst working within the prevailing government guidelines. Clubs and their activities in Scotland fall under the Jurisdiction of the Scottish Government who are adopting a phased approach to the easing of restrictions.

As the respective Governments now announce a gradual release of their lockdowns, Motorsport UK is communicating our plan on how to best resume our activities as quickly as we can while under applicable restrictions.

This planning has been undertaken in consultation with a wide selection of stakeholders including the specialist committees of each sport discipline.

The organisation has been actively modelling how each of the sport's eleven different competition categories could potentially begin to restart motorsport when it is safe and practical to do so.

We want to thank all of the motorsport community for supporting the need to suspend our activities; we appreciate how difficult this has been for many individuals and organisations.

Our goal is to get the sport running again as fast as practically possible. We are working with the regional Governments including Scottish Government and administrations such as Sport Scotland and of course U K Government through DCMS and we have led the development of a detailed plan that can be used by clubs, officials, venues and competitors to manage events safely and successfully but always subject to respect of the requirements of the several national Governments.

We are fortunate that our sport takes place in large outdoor environments, so that with practical measures in place, much of motorsport should be able to resume. We will all need to modify the way we have worked in the past and accept these changes in a collaborative and constructive way. I am sure that the ingenuity and passion of the motorsport community will allow us to navigate the essential requirements to keep everyone safe, but at the same time allow our sport to get going again.

Hugh Chambers, CEO

Types of motorsport

Motorsport in the UK is vibrant and diverse, with 12 main categories of the sport and thousands of events taking place nationwide

Autocross

Competitors drive on a short course on grass or stubble field, against the clock

Autotest

Drivers tackle a low-speed course without hitting any markers

Circuit Racing

Cars race wheel-to-wheel on a track. The winner is the first to reach the chequered flag

Cross Country

Drivers tackle a low-speed course without hitting any markers

Drag Racing

Two cars and drivers see which can cover a quarter of a mile the quickest

Hill Climb

Competitors race against the clock on a narrow, uphill course, in everything from road cars to single-seaters

Karting

Karts go wheel-to-wheel and the winner is the first to reach the chequered flag

Rallycross

A combination of Rallying and Circuit Racing on a track that's part gravel and part asphalt

Rallying

A driver and co-driver take on a series of competitive stages, usually in forests

Sprint

Drivers take turns setting times around a lap of a circuit or point-to-point course

Trials

A low-speed but highly challenging discipline and one of the most accessible forms of the sport

Volunteering

All motorsport events, from Formula 1 to club level, need volunteers to help them run safely and effectively

Motorsport UK is a founding member of the world governing body, the Federation Internationale de l'Automobile (FIA).

Guiding Principles

In building out Motorsport UK's plan to restart motorsport, a number of considerations have been established after significant liaison with our stakeholder community.

Motorsport UK's approach needs to provide robust guidelines while allowing for some flexibility and adaptability of the central tenets to suit each of 11 different motorsport disciplines.

The guidelines have been established through consultation in alignment with government guidance.; it is understood that this guidance is fluid and can be open to interpretation and also, in the event of a second wave of the virus, the advice may need to be withdrawn or reconsidered.

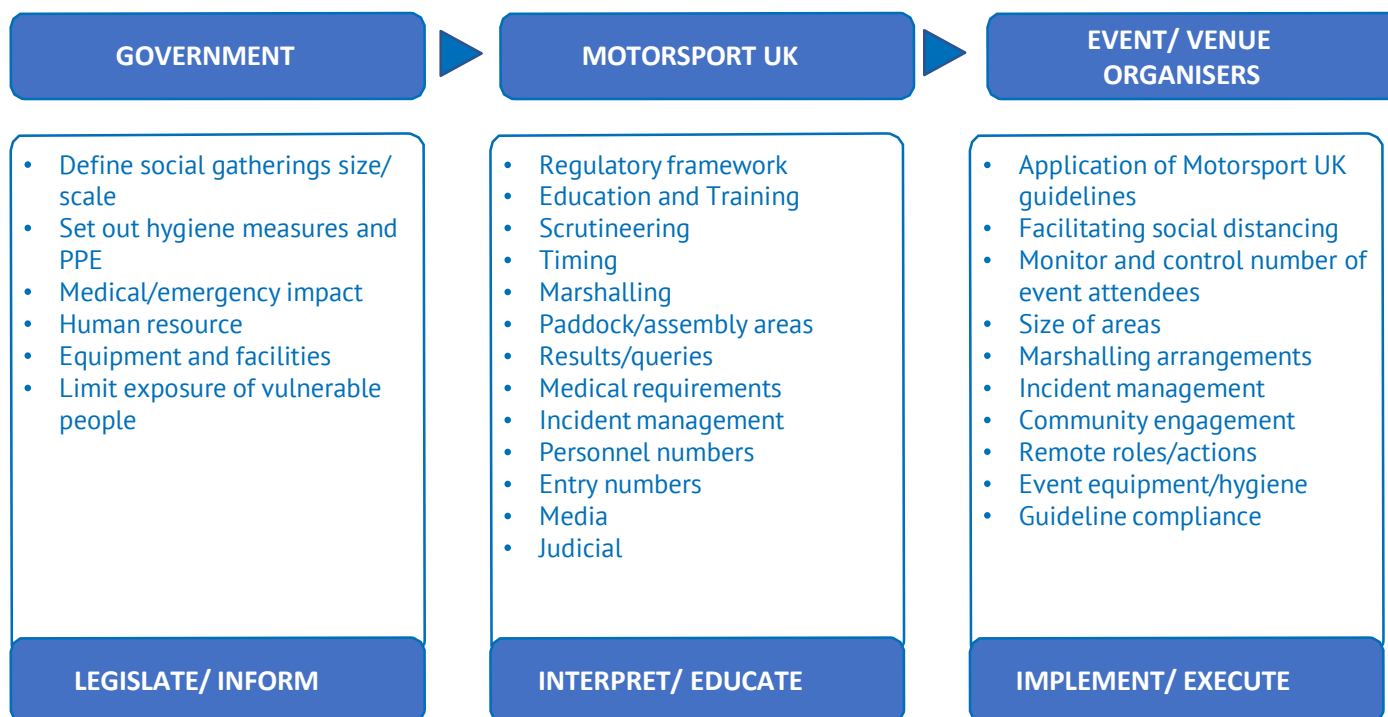

1 GOVERNMENT LEGISLATION	2 RESPECTING SOCIAL DISTANCING	3 GOOD CORPORATE CITIZENSHIP	4 NEGATING HEALTHCARE BURDEN
The Motorsport UK community will respect the law and principles of government guidance	Social distancing is crucial to reducing 'R' and is at the forefront of all restart planning	Positive public perception of our sport is important to ensure cooperation and future growth	Motorsport will not put an additional burden on public health resources in restarting our sport
5 EDUCATION & TRAINING	6 RESPECTFUL OF TRAVEL RESTRICTIONS	7 DISCIPLINES CAN NOT ALL MOVE AT SAME PACE	8 SAFETY, SAFETY, SAFETY!
Appropriate education and guidance will be provided to event organisers to safely execute events	This plan is respectful that not all devolved countries (or administrations) are moving at the same pace	The reintroduction of some of our 11 disciplines, by their nature, will not be simultaneous	Safety is a central tenet and front of mind in the execution of this strategy

Responsibilities

Government and healthcare guidelines have been fluid over the past months and it is a complex task to interpret these and apply them to each of 11 different categories of motorsport, from planning an event to successful implementation.

Below is outlined the roles and responsibilities of each of the Government, Motorsport UK and ultimate event organisers and venue owners.

Important Considerations

The UK is still in the midst of a healthcare emergency and it is the Government requirement that we closely follow their advice and guidance in order that as a nation the UK can navigate our way through the current crisis situation.

Life should not feel normal at this time and it is unlikely that the UK motorsport community can return to how things were for a long period of time.

Notwithstanding that, with the appropriate checks and measures in place, motorsport should be able to continue at this time and it is important for the mental health and physical wellbeing of the community that life goes on as much as normal.

The following are important considerations in getting various parts of the sport up and running at the earliest opportunity.

1. Vehicle Sharing/ Passengers/ Co-drivers

Government easing of restrictions is now varied and localised. This guidance is presented on the understanding that what is permissible in one area may not be appropriate in another.

2. Variations to Documentation

It is likely that documents and processes will need to be modified in order to provide for social distancing with the implementation of some additional checklists and processes.

3. Communications

Flexible communication methods will be required, with an increased emphasis on digital engagement both pre and during the event

4. Training

New ways of working will be required, and appropriate awareness training will need to be undertaken for all involved

5. Social Activities

The social aspect of motorsport is an important part of the sense of community; however it is necessary at these times that these be accommodated within the parameters of government restrictions.

Guidance for Karting Venues and Event Organisers

July 2021

Karting Venue/Organiser Guidance

The following guidance pertains to Karting Venues and Karting Event Organisers.

Against the backdrop of current Government guidance it is anticipated that for events to be able to be run safely, there will be significant changes required across all facets of event organisation.

The following guidance is not exhaustive, however Motorsport UK urges that venue and event organisers take a conservative approach towards their interpretation of the guidelines set out in order to protect competitors, teams, marshals, officials, volunteers and the reputation of motorsport.

With this updated guidance it may be possible to resume running most types of Karting event subject to regional Government advice as it applies to the location of your event, and the practicalities of managing your compliance with that Government advice.

It is important and prudent at this time to adopt appropriate and practical precautions to protect and save lives.

Appendix A: Competition Guidance for Scotland

July 2021

Guidelines for Scotland

The following information provides guidance relating only to the restart of motorsport in Scotland and must not be relied upon for any other jurisdiction in the UK.

Specifically, the information is for clubs and their activities in Scotland and which fall under the Jurisdiction of the Scottish Government who are continuing to adopt a phased approach to the easing of restrictions with the assistance sportscotland. <https://www.gov.scot/coronavirus-covid-19/>

Motorsport UK continues to communicate a plan on how to best resume motorsport activities while operating under applicable restrictions in this jurisdiction.

Travel guidance issued by the Scottish Government should always be adhered to and is available through the following link: **Staying Safe and Protecting Others: Travel**. A local post code checker is also available at **COVID restrictions by protection level in areas of Scotland**.

Sports Scotland guidelines are available through the following link: **Sports Scotland Guidelines**

Scottish Government introduced a strategic framework document for managing COVID-19 which became effective from 2 November 2020 and updated July 2021. This provides a 5 Level approach (0-4) with each local authority area (or sub-area) placed in a relevant protection Level depending upon its COVID-19 status.

Guidelines are subject to the Scottish Government COVID-19 Routemap. Current information is available through the following link: **Scottish Government: Covid-19 Framework for decision making**.

Specific guidance for Clubs and Organisers

1. It is the responsibility of each club or venue to undertake a documented COVID-19 -Security Risk Assessment. There is also Scottish COVID Officer e-learning available [here](#).
2. Competitions should only be undertaken where physical distancing and hygiene measures are in place and any travel restrictions can be respected.
3. Prior to opening any indoor changing facility venues/organisers must refer to and follow specific guidance [Getting Your Facilities Fit for Sport](#).
4. Hospitality services and toilet facilities at clubs and venues may reopen subject to Scottish Government guidance.
5. Organised and sanctioned Governing Body outdoor competitions must take place behind closed doors:
 - a. with only competitors and essential competition staff in attendance
 - b. no spectators
6. A register of all attendees including their full names and contact details will be maintained in accordance with this guidance document.
7. For adults a maximum of 500 people can combine to essentially create a 'competition bubble' as long as physical distancing measures are maintained. A record of those within the bubble must be maintained and available upon request.
8. Competition organisers should ensure no two 'bubbles' come into contact with each other at any time throughout the day. This may be achieved with staggered starts etc.
9. PPE requirements including cleaning measures are subject to Health Protection Scotland guidance and must be adhered to.
10. Spectators are permitted where a parent, guardian or carer is supervising a child or vulnerable adult and where entrances and exits are controlled for the purpose of crowd and capacity management in line with Scottish Government COVID-19 [Event Sector Guidance](#) and [Calculating Physical Distancing Capacity in public settings](#). Where it is not possible to always prevent spectating mitigation measures must be considered as part of the risk assessment for non-permanent venues with an emphasis on discouraging, where possible, informal spectating and must be clearly communicated with a reminder for the public to follow Scottish Government guidance.
11. Travel to and from competition must not mix households i.e. no car sharing. Dual occupancy (no more than 2 occupants from mixed households) for on-event participation is only permitted when in compliance with Vehicle Occupancy within the Motorsport UK Event Resumption requirements. There must be no rotation of occupants and both occupants must either wear a face mask or competition helmet and/or a balaclava. In addition the occupants must also provide evidence of a negative lateral flow (antigen) test on the day of the start of an event or a negative PCR test within 72 hours of the start of the event. Scottish Government and Motorsport UK travel guidance must be adhered to.
12. Where any Event may exceed 1000 attendees in any one day (including officials and venue operators) specific agreement with Motorsport UK and in consultation with relevant local authorities, environmental health, the police or other body responsible for the safety of the public. Specific agreement must be reached with all parties before the Event takes place.

Specific guidance for Clubs and Organisers

1. It is the responsibility of each club or venue to undertake a documented COVID-19 Security Risk Assessment. Guidance for the COVID Officer is available [here](#).
2. A template for the COVID Risk Assessment is available [here](#).
3. Competitions should only be undertaken at your own club or venue where physical distancing and hygiene measures are in place with a limited number of Spectators permitted and controls in place to protect maximum numbers allowed along with measures to reduce the potential spread of the virus.
4. Indoor changing facilities can be used however this use must be minimised as far as possible.
5. Hospitality services and toilet facilities at clubs and venues may only reopen subject to Northern Ireland Government guidance.
6. Organised outdoor competitions are permitted subject to an appropriate risk assessment with numbers (including competitors, officials, management and essential support personnel) not exceeding 500 and up to 500 spectators permitted however subject to social distancing policies. Measures in line with Motorsport UK protocols must be in place to limit the risk of virus transmission.
7. A register of all attendees will be maintained in accordance with this guidance document.
8. PPE requirements including cleaning measures are subject to guidance from Public Health Advice Northern Ireland and must be adhered to.
9. Limits on the number of participants accessing facilities should be risk assessed to ensure physical distancing can be maintained. The use of Lateral Flow Tests should be considered for larger planned events.
10. Children aged under 13 years of age are not required to wear a face covering as set out in Northern Ireland Guidance and Public Health Advice.
11. Travel to and from competition must not mix households i.e. no car sharing.
