

LEAD CLUB AS LOCAL ORGANISER FOR THE MOTORSPORT UK BRITISH F4 Certified by FIA CHAMPIONSHIP**Invitation to Tender – Appendix A**

Motorsport UK has received an enquiry during the tender process and the queries and Motorsport UK's responses are detailed below:

Question:

Clarification is requested from Motorsport UK arising from Tender Opportunity F4 issued 24th September 2021 as shown below:

1. Named key officials who will support the Championship?
2. Confirmation that all required event organisation infrastructure will be provided to support that provided by Motorsport UK?
3. Safety Related Proposals. Motorsport UK to detail and clarify which aspects listed in the Tender Opportunity are required to be supported?
4. Request that the closing date to submit proposals be extended to 12 noon Wednesday 20th October 2021 reflecting time required to receive clarifications from Motorsport UK to prepare a response?

Motorsport UK Replies:

1. Motorsport UK will appoint the Championship Coordinator and Technical Officials
2. As the Championship is already incorporated within the BTCC package for the race events the meeting infrastructure will be provided by the meeting organiser; should Motorsport UK separately need to call upon the Lead Club for any additional personnel or other provisions, then the Club would assist with providing the needed support. Media management will be via Motorsport UK and technical support for teams is being contracted.
3. As a Lead Club the successful tenderer will work collaboratively with Motorsport UK on all matters as referenced within the Introduction.
4. No extension to the submission deadline will be granted.

7th October 2021
